

## The White House and your home

*We guarantee ARCOLA to warm any small house as perfectly as our larger heating plants warm mansions, clubs, cathedrals, and even the White House itself*

**WE** guarantee that ARCOLA has these five advantages which no small-home heating equipment has ever offered:

- 1—Connected with American Radiators it will fill every room of a small house, upstairs and down, with healthful hot-water warmth.
- 2—It will save the waste and labor of a half dozen old-fashioned stuffy stoves.
- 3—It will reduce your fuel consumption room for room at least one-third of the amount consumed by stoves or hot-air furnaces as proved by the experience of thousands of ARCOLA owners.
- 4—Connected with the kitchen tank it will provide an abundance of hot water for washing and bathing.
- 5—It can be installed easily and quickly without the slightest disturbance to the family.

This is no ordinary guarantee. It is offered by the largest manufacturer of heating equipment in the world.

The perfection of ARCOLA, after years of experiment in our research laboratories, means that now, for the first time, the small home can be as perfectly warmed as our larger heating outfits warm clubs, mansions, and even the White House itself.

And the cost of ARCOLA with American Radiators complete is—think of it—no more to install than a stove for each room.

Make up your mind to save a third of what you have been spending for fuel. See ARCOLA in the store of your Heating Contractor today.

The red and yellow card at the right is the sign of a Heating or Sanitary Engineer (formerly called Steamfitter or Plumber) who can show you ARCOLA. Look for it in his window. It will pay you to consult him twice a year as you do your Doctor or Dentist. To have him examine and report on your heating and plumbing costs little. It may save you a very great deal.

## AUTO WHEEL CATCHES IN CAR TRACK, TURNS OVER

Mrs. John Nistelbeck, Columbus, Suffers Broken Nose.

ENROUTE TO CAREY SHRINE WITH TWO SONS AND GIRL

Accident Happens on the Hill Here Early Sunday Morning. Taken Home.

Mrs. John Nistelbeck, No. 722 south Sixth street, Columbus, had her nose broken and received a bad cut below the left eye, and her son, aged about twenty, received a bad abrasion of the skin of the face, Sunday morning about 6 o'clock when a tire of their automobile became wedged in the street car track where it turns off Delaware avenue into south Main street.

Mrs. Nistelbeck, her two sons, one a boy aged about fourteen, and a daughter, about eighteen years of age, were enroute to Carey to the shrine at the Catholic church there. Accompanying them were a party of friends in another machine ahead. The others stopped up street for breakfast and as the Nistelbecks did not join them they drove back to see what detained them. They accompanied the family back to Columbus.

Sudden Stop of Car. The sudden stop of the car when the wheel caught in the track turned it completely over, crushing the top and totally demolishing the machine. Mrs. Nistelbeck, who with her daughter was sitting in the rear seat of the car, was thrown out, striking her face on the pavement. The daughter was saved from injury by landing on her mother, when thrown out. The older boy, who was driving, held to the wheel and saved himself from more serious injury. The younger boy, like his sister, escaped injury.

The injured man was carried into the N. E. Arnold home and surgical attention given her, after which she was removed to her home in Columbus in the Schaffner ambulance. The wrecked machine was towed to Columbus. The woman's husband conducts a butcher shop on Sixth street.

Statement of the Ownership, Management, Circulation, Etc., Required by the Act of Congress of August 24, 1912.

Of the Marion Daily Star, published daily except Sunday, at Marion, Ohio for October 1, 1921.

State of Ohio, County of Marion,

Before me, a notary public, in and for the state and county aforesaid, personally appeared Jas. C. Woods, who, having been duly sworn according to law, deposes and says that he is the Vice President of The Harding Publishing Co., and that the following is, to the best of his knowledge and belief, a true statement of the ownership, management, circulation, etc., of the aforesaid publication for the date shown in the above caption, required by the Act of August 24, 1912, embodied in section 443, Postal Laws and Regulations, to wit:

That the names and addresses of the publisher, editor, managing editor and business manager are:  
Publisher, The Harding Publishing Co., Marion, Ohio.  
Editor, Geo. H. Van Fleet, Marion, Ohio.  
Business Manager, H. R. Schaffner, Marion, Ohio.

That the owners are: The Harding Publishing Company, W. G. Harding, Geo. H. Van Fleet, A. J. Myers, W. F. Bull, Malcolm Jennings, J. C. Woods, C. W. Kramer, H. R. Schaffner, B. J. Hudson, all of Marion, Ohio, except Mr. Jennings, whose address is Columbus, Ohio.

That the known bondholders, mortgages, and other security holders, owning or holding one per cent. or more of total amount of bonds, mortgages, or other securities are: None.

That the two paragraphs next above, giving the names of the owners, stockholders and security holders, if any, contain not only the list of stockholders and security holders as they appear upon the books of the company but also, in cases where the stockholder or security holder appears upon the books of the company as trustee or in any other fiduciary relation, the name of the person or corporation for whom such trustee is acting, is given; also that the said two paragraphs contain statements embracing affiant's full knowledge and belief as to the circumstances and conditions under which stockholders and security holders who do not appear upon the books of the company as trustees, hold stock and securities in a capacity other than that of a bona fide owner; and this affiant has no reason to believe that any other person, association, or corporation has any interest direct or indirect in the said stock, bonds, or other securities than as so stated by him.

That the average number of copies of each issue of this publication sold or distributed, through the mails or

otherwise, to paid subscribers during the six months preceding the date shown above is

11,254.

The Harding Publishing Co., Jas. C. Woods, Vice President.

Sworn to and subscribed before me this 1st day of October, 1921.  
[Seal] C. W. KRAMER.  
(My commission expires May, 1924.)

The members of the Clover club were entertained at supper Sunday evening at the home of Mr. and Mrs. Vahl Hoover, of Prospect.

## The Second Great Price Reduction On Suits, Every \$75 Suit in the Store, Marked Down to \$59.50

WE FEATURED SUITS AT \$75.00 THIS FALL—WE HAD A TREMENDOUS SALE OF SUITS AT THAT FIGURE—EVERY ONE WAS EXCLUSIVE AND WE SIMPLY REFUSED TO DUPLICATE A SINGLE SUIT. MOST OF THESE SAME SUITS WERE NOT EQUALED ELSEWHERE UNDER \$100.00—AND OUR ASSORTMENTS WERE BEWILDERING.

*Now we announce that these same Peerless \$75.00 Suits are to be sold for \$59.50. No exceptions. You may choose from our vast assemblage of Suits at that price and pay us \$15.50 less than the low marked price. There's special models for Misses, for Women, for Stouts—Short or Long Jackets—Tailored Effects to the most extreme novelties.*

MANY OF THEM HAVE COLLARS AND CUFFS OF SQUIRREL, MOLE, BEAVER. OTHERS ARE BEAUTIFULLY EMBROIDERED. SOME ARE HAND TAILORED—BLACK, NAVY, BROWN, TAUPE. THE MATERIALS ARE THE FINEST OBTAINABLE, ENGLISH TRICOTINE, TWILL CORD, MOUSSYN, PANVELINE, POLLYANNA, ETC. THE LININGS ARE OF THE COSTLIEST SILK.

Commencing Tomorrow and until all are closed out—Choice \$59.50—Alterations extra.

## New Dresses — Five Important Sales!

Newest Dress Models specially purchased whereby we can sell the last models to date at savings that are indeed rare even out of season.

## New Tricotine Frocks, \$25, \$29.50, \$39.50

\$5.00 to \$10.00 under regular value. Nearly fifty models to choose from. Highest quality Navy Tricotine, in a complete size range 16 to 46.

## Silken Costumes, \$25.00 and \$50.00

Almost half actual retail value—The gowns at \$25.00 include mostly \$50.00 Dresses of Taffeta, Satin, etc., while the exquisite costumes at \$50.00 sold up to \$100. They are hand beaded and embroidered effects of the costliest silk weaves produced this season.

## Any of Our Special \$50 Suits, For \$39.50

## Any of Our \$100 Suits, Reduced to \$85.00

Entire Suit Stock is marked down to the most tempting prices—only reason continued warm weather—Suits are big sellers and none too plentiful. That is, manufacturers have no made up stock. These prices apply only to suits in stock, reorders must be sold at regular selling prices.

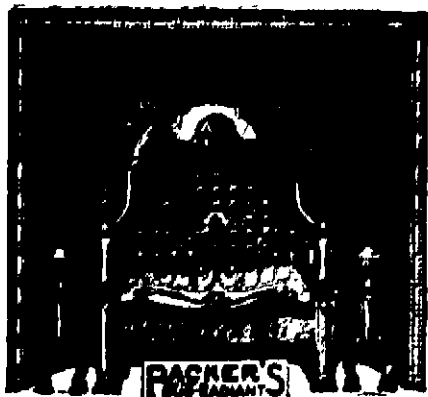

## Wonderful Suits, Samples, at \$25.00

The styles are the best, the materials are of the highest class, the colors include Navy and Brown; yet because they are samples you may buy \$39.50 to \$59.50 values for only \$25.00.

## MOTHER AND HER SON, IN AUTO, CRASH INTO TRAIN

Wreckage at Edison Catches Fire Sunday Morning.

FIRE EXTINGUISHERS USED IN THE NICK OF TIME

Mrs. B. H. Talmage and Nine-Year-Old George Talmage Badly Hurt.

Nine-year-old George Talmage, of Morrow county, is in the City hospital here with a broken right shoulder and collarbone, and his mother, Mrs. B. H. Talmage, aged forty-one, is at the home of Mrs. Mary Bell, at Edison, with broken collarbone, a large scalp wound and divers cuts and bruises as a result of an accident at Edison Sunday morning.

Both owe their lives to George Cronenwitt, garage owner at Edison, who with a fire extinguisher put out the fire which was rapidly consuming the wreckage under which Mrs. Talmage, unconscious, was pinned. The boy was picked up a short distance away from the wreckage by Mr. Cronenwitt. He was apparently lifeless and his hair was ashed. The fire is thought to have been caused by explosion of the gasoline tank.

Smashed to Pieces. The Dodge automobile was literally torn to pieces, the only whole parts about it after the accident being one headlight and one tire. Mrs. Talmage was carried to the Bell home, where a doctor was called. The boy was brought to Marion later by his uncle, J. W. Masters, of Morrow county, formerly a representative of the McMurray Sulky company.

Mrs. Talmage and her son were enroute to the M. E. church at Edison from their home three miles west of Edison. They were driving east, with Mrs. Talmage at the wheel, and the passenger train was going south at a high rate of speed. Their view was obstructed, it is claimed, by houses and barns close to the track at this point in Edison.

Hits Second Coach. The Talmage automobile struck the second car of the train and was hurled perhaps fifty feet.

Twenty-seven stitches were required to close the wound in Mrs. Talmage's scalp. Unless unforsaken complications set in, or Mrs. Talmage has suffered a fracture of the skull, this as yet being undetermined, it was said today that both would recover.

Mrs. Talmage's husband committed suicide in a Columbus sanitarium several weeks ago.

## TO HONOR MEMORY OF COLONEL ROOSEVELT

School Teachers Asked To Hold Exercises October 14.

School teachers of Ohio have been asked by Director Vernon M. Riegel, of the state department of education, to hold in their rooms on the Friday before Roosevelt's birthday, October 16, exercises which will fittingly honor the memory of the great American. It is suggested that these exercises take the form of lessons in the kind of Americanism which Roosevelt typified.

Within a few days the department will mail out to school teachers all over the state life-sized bust pictures of Roosevelt which were sent to Ohio for distribution by the Roosevelt Memorial association. These are to be framed and hung in the schools of the state. The unveiling of these pictures is suggested as one of the forms of observing Roosevelt's birthday.

## WOMAN MAKES \$150,000, STARTED WITHOUT A CENT

Mrs. Olive Phillips, of Los Angeles, California, tells her story of success. Five years ago she was practically without a cent; today she is the owner of a ninety-eight apartment hotel, in which she houses a number of millionaires. She is worth \$150,000, and she accounts this as only the beginning. Mrs. Phillips started on the road to success by winning a prize-story contest. She started a rooming house, and as success gradually came to her she began to enlarge upon her opportunities and continually increased the size of her houses by buying and reselling until she acquired her ninety-eight apartment hotel. She is now on tour of the United States and Canada, studying methods of other successful hostesses, so that she may be able to apply their methods and make improvements upon her own.

## LOOK THE PROBLEM OF SAVING Squarely In The Face.

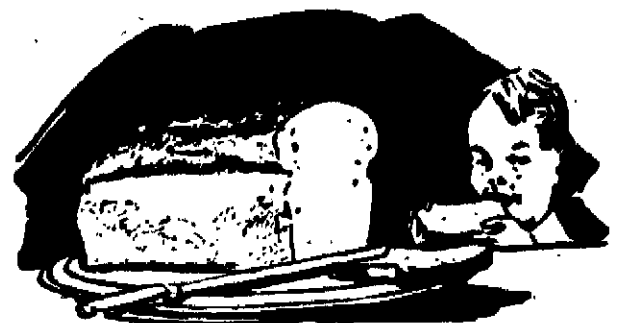

ALMOST every one knows that he ought to save money. There are no many demands and desires that money seems to deft away.

If you save only what is left over each month, there never is much left over, is there?

The crux of the matter is this: Decide how much you can afford to save out of each pay, and having decided, save that amount the first thing.

Save it persistently; put it where it will earn interest; and keep it growing. If you do this results will follow. We will help you, too, by paying you 5% compound interest on your savings.

## MARION MOTORISTS GO DOWN AN EMBANKMENT

When Another Car Attempts To Go Around Them.

MR. AND MRS. H. DUNN  
HURT NEAR MT. GILEAD

Tiffin Man Stopped by Relatives Driving Ahead—Injuries Not Serious.

Howard Dunn, watchmaker at Nelson's jewelry store, had one of his legs badly bruised, and his wife had her left side bruised and her left eye cut, Sunday morning about 10:45 o'clock in an automobile accident on the Mt. Gilead and Mt. Vernon pike five miles east of Mt. Gilead.

Mr. and Mrs. Dunn were in a runabout and a car driven by James Weir, of Tiffin, went to pass and cut too close to the Dunn car, upsetting it down a five-foot embankment. The machine turned over twice, pinning Mr. and Mrs. Dunn beneath. The car is almost a total wreck.

The man did not stop, but was headed on by Mr. Dunn's sister and husband Mr. and Mrs. J. J. Beeman, of this city, who with their daughter were in another car a short distance ahead. Mrs. Beeman and her daughter happened to be looking back when the accident occurred and they saw Weir drive on and even try to pass their car.

Mr. and Mrs. Beeman brought the injured people back to their home in the Dea apartments at the corner of Farming and Park streets. The party was enroute to Mt. Vernon for the day.

Size eats grease and dirt. Adv. 1-c

### CHURCH SOCIETY

Lee Street Rally Day.

Rally day, held Sunday at the Lee street Presbyterian Sunday-school, was marked by one of the largest in the history of the Sunday-school, the attendance numbering 120. The service was opened with a musical program, consisting of vocal and instrumental selections, one of which was a violin solo by Paul Gomez, director of orchestra at the Marion theater. This was followed by inspirational talks by D. Landon spoke on "Mission Work, Past and Present." The Sunday-school work is in charge of Rev. G. L. Pake, former pastor of the church, and plans for the future indicate that work there will progress rapidly.

### King's Herald.

The King's Herald, of the Prospect Street M. E. church, met with Miss Myrtle Williams of Park boulevard Sunday afternoon. Fifteen members responded to roll call and there were two guests. Readings were given by Misses Mabel Midlam and Rachael Zuck. Music was also enjoyed.

### Promotion Day at Epworth.

Sunday was promotion day in the Epworth M. E. Sunday-school for the junior, primary, beginners and cradle-roll departments. Fifty-two were promoted from the junior into the intermediate department, sixteen from the primary to the junior department, thirty-five from the beginners to the primary, and thirty-five from the cradle-roll to the beginners department.

The regular promotion exercises were carried out.

Communion services were held at the church Sunday morning, a large number partaking of the Lord's Supper.

At Fife Memorial Church, Rev. Robert Huxley, of Bucyrus district superintendent of the Marion Baptist association, preached at the morning and evening services Sunday at Fife Memorial Baptist church. In the afternoon, Rev. Mr. Huxley spoke at the Bennett Street mission. A pastor will be chosen at the monthly business meeting of the church, Wednesday evening following the regular prayer meeting service.

kaged as the new choir director for the Epworth M. E. church and held his first meeting for practice Friday evening, preparatory to taking up his duties next Sunday. Plans are being made for a large choir this winter, and some excellent music. Mr. Macdonald has been in Marion about eight months, coming here from Springfield. He is now in the service of the Warner & M. W. Co., of Springfield, Mo.

He is a graduate in voice from the Troy Conservatory of Music, Troy, N. Y., and before coming to Springfield was director of a choir at Olean, N. Y.

### Rally to Field.

A rally was held by the Salem Financial Savings-school Sunday morning with a program of songs and recitations. R. D. H. Morris gave a fine talk to the school and the program was in charge of Miss Floten a Leebart and the prom-

## Young Man, Your Future is in Your Own Hands.

You can mold it as you will.

Those who profess the second-sight to read your future may make it one of radiant promise, but what it really will be will be no more than what YOU make it.

You can be sure of a large measure of success and independence if you save. You can reach middle age and old age with a goodly sum in the bank, equipping you with the wherewithal to grasp opportunities that will present themselves to increase your possessions.

You can spend all you make as you go and reach old age with no more than you have today, except an irreparable regret for your failure to save just a small part of what you earned when strength and youth were in your favor.

This friendly bank takes a special interest in the youthful saver, knowing that he will be the successful citizen of tomorrow.

We invite those who are beginning to make their own way to open a savings account here. A dollar will be enough to start.

4% interest is our encouragement.

### THE LARGEST CLOTHING STORE ORGANIZATION IN THE WORLD

## Presenting New Plush Coats

Sumptuous in Style, Finish and Fur Trimmings

Buying these handsome Plush Coats when prices were at their lowest ebb, is the sole reason why every J. C. Penney Co. customer profits in an unusual way in this attractive presentation. Values in these groups are incomparable!

**Plush Coats**  
\$14.75 to \$19.75

Finest quality silk plush, made with the generous luxurious sweep of line and finish of the more expensive fur coats. You have a wide choice in the matter of collars, for while many in this group have smart collars of plush, others show the prevailing of the fur collars of Coney, Sealene and Beaverette. Sizes, 16 to 44.

**Silk Plush Coats**  
\$24.75 to \$39.75

Rich silk velvets make these plush coats particularly attractive. Finest grade of silk plush, tailored with the utmost care, and adorned by becomingly shaped collars of the new popular fur, including heavy Black Opposum, the new Beaverette and Sealene. Some models have smartly turned fur cuffs. All the new coat effects that are so much in demand.

**Cloth Coats**  
\$14.75 to \$34.75

The most exceptional values of the season are enjoyed both in style and material of these handsome coats. Soft velvets in rich Autumn colorings and the smart Sealene cloth. While many are fur trimmed, others have self-collars which allow the wearer to enjoy the use of the fur neck pieces so much worn at present. Sizes, 16 to 44; all popular colors.

 Low during night, 52.

OHIO WEATHER.  
 Fair and cooler tonight; probably light frost in west portion Tuesday fair.

MONDAY, OCTOBER 8, 1934.

Star subscribers will greatly facilitate mail delivery service by making all communications to the business office, not to carriers. Please do this.

## THE HUB OF COMMERCE.

ANOTHER GARDEN AFTERNOON.  
 The Star will go to press at noon tomorrow owing to the fact that the gas will be shut off at that hour. Patrons will not receive their papers, however, till the usual time.

Daily Proverb—"Never mourn over the past nor hope over the future."

This will have to be said for Miss Dugan; she looks awfully young and charming for her age.

The enthusiastic Buckeye fans may now cancel the reservations made at Cleveland hotels for the world's series.

Pulling off a championship series in one city is going to sure a lot of railroad fare for the thirty-third college fans.

Greater college enrollments than ever before and greater saving bank deposits. Some mighty odd conditions obtain this fall.

"The scientists tell us the span of human life is longer now," observed the restaurant philosopher at luncheon today. "It should be to enable us to pay our bills."

Such is fate! If Babe Ruth makes one home run less next year than this, we will be hearing that he is "going back."

The contention of the dyes, that the jails would soon be empty under prohibition, has in no way been refuted. They might be under prohibition—real prohibition, not the theoretical variety.

Many a man has gained a reputation for conservatism by refusing to express his opinion when, in reality, he hadn't any opinion to express.

Some of the groups down in congress working for special privilege should get next to the fact that they were elected to work for the good of the country—at least, that should have been the impelling object of their choice.

We never hear a married man pronounce marriage a failure that he does not assume that his wife beat him to that conclusion.

To get one of the unemployment conference's probable recommendations, down to a local basis, how many local industrial and business concerns will agree to take on one man to each fifty already employed?

Since Senator France likes the Russian Bolshevik system so much better than our own, the people of Maryland should see to it that he hasn't any official duties over here to keep him from moving to Russia.

The purpose of the unemployment conference, if we get the situation correctly, is to devise ways and means to make employment more general, not to regulate the matter of pay.

Figures of the departments of labor and the department of commerce show a difference of about two millions in the estimated number of unemployed. It is not calculated to inspire confidence in statistics—Canton News.

The proposition is not so hard to understand. Secretary Hoover's figures were secured by comparing the number unemployed now with those unemployed in normal times. The figures of Secretary Davis probably are had by comparing unemployment now with conditions in war times, when everybody worked, including father.

## TO IDENTIFY CRIMINALS.

The reorganization of the detective bureau of the department of justice, supervised by Attorney General Daugherty by the appointment of William J. Burns as chief, is already bearing fruit. The International Association for Identification, heretofore maintained by subscriptions from various local police departments, is to be taken over by the government and developed to the highest standard of efficiency. Details of identification, collected by police officials from all parts of the country are to be collected at Washington and arranged for immediate reference. Requests for aid from local officials in any part of the country will be forwarded by the department. The new arrangement is part of a plan which is being completed against criminals that Mr. Daugherty has inaugurated.

## AFTER HE TOOK HIM IN AND FED HIM

## INCONSIDERATE DRIVERS.

A writer in an automobile journal says a good many motor accidents can be attributed only to the "self-hypnotism" of the drivers, and he relates several incidents in point. According to his theory there is a mysterious something in the motion of the rapidly-proceeding car that deadens the senses at a time when they ought to be unusually alert. He has seen an expert chauffeur allow his car to crash head-on into another coming from the opposite direction and yet the man had his eyes wide open and his attention apparently was not distracted from the job of driving.

Whatever there may be to this theory, certainly an increasing number of motorists are utterly oblivious to the rules both of the law and of common courtesy and safety in the operation of their cars.

A writer mentions the following classes of dangerous and inconsiderate drivers: "The man who leaves his empty car stand in a busy street all day long; the man who turns a corner at fifteen miles an hour after a single foot of the road, giving the pedestrian no chance; the man who fails to stop back of the building line when halted by a crossing cop; the man who passes to the left of a trolley car whether the street is empty or crowded; the man who refuses to stay in the traffic line and persists in edging ahead of the man in front of him; the man who uses the left side of the street or roadway to get ahead of the line; the man who, intending to turn a corner, rushes up alongside the car on the right, thrusts out his hand, swings across the front of the other and compels the latter driver to make his car stand on its nose to prevent a collision; and the worst nuisance of all the man whose passengers stick their hands out in all directions, leaving you to guess whether he intends going to the right or left or up in the air."

There is no law to reach some of these offenders; others are amenable. Every careful motorist is interested in the observance of the ordinary rules of the road. The majority are careful. For the sake of the general safety, there ought to be some way to make all too the mark.

## WHAT ARE FAIR PRICES.

The question as to what are right prices dates back many centuries. No doubt under the shadow of the pyramids of Egypt the seller and the buyer argued often on whether the price for the lot of linen in different periods men have had different ways of arriving at what they considered right prices. It is held that previous to the latter part of the nineteenth century the moral side of this question was given more consideration than it receives today when price is regarded perhaps too much an economic question.

We should fare ill, however, if so large an element as the moral element is left to be left out of consideration. The economist may look on our social order as an industrial mechanism, but he will have difficulty in persuading the vast majority of our citizens that there is not a right and wrong even in matters that pertain to price.

Popular opinion is likely to agree with that of an expert, who recently defined right prices as "prices which will make goods move." The mere possession of a commodity does not give the possessor the right to charge whatever he pleases. He may charge all the money he wants, but the public has of late taken to charging what wholesome interest in seeing to it that the traffic isn't made to bear too much. It is known to be doing its buying in places where the traffic isn't made to bear too much. It is known to be doing its buying in places where the traffic is made to bear a little less.

As the public becomes more and more exacting in its demands that prices shall be set to give to the consumer the benefit of the bargain, the prices. Let once the public make a move to do so, and the facts as to what is a fair price for any given commodity will be set before a hard time to practice splendor and deception. As long as we can maintain a free and competitive market free from artificial control, it will be harder and harder for the seller to push goods as any but the right price.

## LIFE'S VAUDEVILLE.

[By Dr. James Ball Naylor.]

## AS WE GROW OLDER.

May all your virtues with your years improve  
 Till in consummate worth you shine the pride  
 Of these our days, and succeeding these  
 A bright example.

Youth naturally has great aspirations. So youth is rather intolerant of things which do not measure up to its aspirations; and rather headstrong about having its own ideals and the working of them.

Youth is prone to gasconading itself. Dr. Peter Bryant was an ardent Federalist. So he had little or no use for Thomas Jefferson. So he had rank antipathy for Jefferson and all that Jefferson advocated, in fact.

He disliked Jefferson, just because he disagreed with him; and those we dislike we sometimes have a hard time to defeat, if not to injure.

So Dr. Bryant went his daily rounds among his patients, criticizing and condemning Jefferson. He made speeches from his one-horse stage; he held forth at the cross-roads and on the street corners, he talked at the bedside of his patients. And ever his vitriolic tongue wagged of the mistakes and shortcomings of Thomas Jefferson.

"This thus some few of us attain to happiness. But Jefferson continued to pursue the even tenor of his way.

"It is doubtful that he ever knew of the student opposition of the doughty doctor. He succeeded politically, and was elected president. And the worthy doctor fell sore.

At this time, William Cullen Bryant, son of the doctor, was a callow youth and was just beginning to scribble verse. His father thought him a wonder—as a fond father should, and conceived the idea that it would be a master stroke to have William Cullen write a poem laying bare Thomas Jefferson's sins of omission and commission. And so it was William Cullen readily fell in with the idea, of course. What youthful and ambitious scribbler ever declined so good a chance to write something that would prove immortal? William Cullen wrote a batch of verses; and, hot foot, his father took them to the Hampshire Gazette and had them published. It is questionable whether Thomas Jefferson ever saw those verses; but the neighbors all saw them—and that was enough for Dr. Bryant.

Later, much later, in life, William Cullen Bryant, published a collection of his poems—his real poems. Some of his friends inquired why he did not include the metrical screed against Thomas Jefferson; and his sensible reply was:

"Why should I seek to preserve such nonsense?"

We grow wiser as we grow older—or should. We grow more tolerant of the faults and failings of others, less tolerant of our own—or should do so.

We become less critical of the works and ideas of our fellows, more critical of our own—or should become so.

"Aye leads the critics that are sure to please." It will let it.

Senator Lodge's idea of a moral obligation is anything but Democratic as opposed to—Ohio State Journal.

And he isn't so far wrong at that, eh?

Admission to "New-on-theaters" is paid in vegetables. However else it works, it is one good way to make an audience leave its vegetables at the door—Cleveland Plain Dealer.

But how about ancient eggs?

Happy thoughts. Go out in the country where there is nobody and have a fit hour all by yourself—William Knowlton News-Journal.

The average man can't do it, the company's too poor.

Chicago, Kansas is making a bid for new fame by electing a mayor who reforms, brings morals and good habits, traveling over three states to get this and to give the clothes with a lot of so-far-amateurs when they are coming in to get for their boots, and the decision of the public is that he has a hard punch right and left. Ohio State Journal.

That little minister ought to be able to knock the devil out of slanders.

## TWENTY YEARS AGO

Dr. George B. Dodge, of New York City, secretary of the International Educational System of the Y. M. C. A., spoke at the Dr. C. E. Sawyer sanctuary.

Miss Martha Beatrix, of Marion county, and Oscar J. Ford, of Crawford county, were married the day before at the home of the bride's parents, Mrs. and Mrs. David Beatrix, in Grand Prairie township. Rev. Mr. Watterson, of Kirkpatrick, Ohio, officiated.

Dr. W. S. Drake, of Portland, Oregon, formerly of Marion, in a letter received here, related some interesting tidings about the Pacific coast. He said that Senator Mitchell, of Oregon, was a cousin of the late Mr. Hippie, of Waldo, and that a senator's real name was Hippie, but changed it to James Hippie Mitchell, Mitchell being his mother's maiden name. Senator Mitchell, Dr. Drake said, once taught school in the Hecory South district below Norton and lived at Eden, Delaware county as a boy.

## QUILLEN PARAGRAPHS

Noble purpose! In Klux; ten weeks. Brief history of glorious war: Preparation; despair; repair. Life is going to be just one darned crisis after another.

History repeats itself. Paragraphers have the same weakness. Old King Coal once called for his father, not his sharp-shooters.

The income tax exemption of \$400 for each dependent will prove a great relief to everybody except the stock.

Let's see, how was it the afflicted peoples got along before Columbus discovered America?

Eventually the nations will agree concerning everything except version of the war.

All this talk about a hard winter indicates that we are not yet relieved of excess prophesies.

There is something peculiarly touching about a bald-headed man's condemnation of hubbed hair.

There are two kinds of poets: Those who write real poetry, and those who make a pretty good living.

The man who said: "A woman is as old as she looks" hadn't seen her at 7 o'clock of the morning after a party.

Engineers say the dams in this country are too weak. They might try providing a few adjectives.

And yet the suckers that men do live after them, and breathe a pure air that is unknown in jails.

The few things a woman can't accomplish with a hair pin, she can handle very nicely with a can opener.

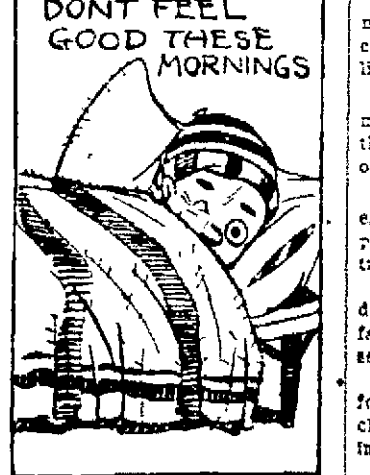

When the affable stranger offers a cigar, you can't tell whether he is a politician or a booth peddler.

The old-fashioned farmer bought gold bricks, but he was probably too wise to put his faith in real estate.

But if you build your house in the depths of the forest, the coal man won't make a beaten path to your door.

## THAT KID NOOZIE

MAYBE YOU THINK THE OLD BLANKET DON'T FEEL GOOD THESE MORNINGS

During the last forty years more than eight thousand wrecks have occurred on the coasts of Great Britain. Greenland was discovered and named about the end of the tenth century by a Norseman, who established a colony there.

Threads of gold used in India for making lace are drawn out so fine that 1,150 yards of it only weigh one ounce.

A pile from which a dog has eaten will never again be used for the preparation of macaroni food among typhoids.

If the sun were extinguished suddenly, we should not be aware of the fact until eight minutes and eighteen seconds afterwards.

In the north of Siberia most of the food sold in shops is frozen. Meat is chopped with axes and milk is sold in long sticks.

The chief difference between the human hand and that of the higher apes lies in the thumb, which is always shorter in the ape.

Hammocks are supposed to have received their name from the fact that the natives of Brazil used the bark of the hammock-tree for nets in which to sleep.

Probably the oldest piece of furniture in the world is the throne of Queen Hatshepsut, in the British museum. She reigned in the Nile valley some 1,600 years before Christ, and twenty-nine years before Moses.

## KEEP AN EYE ON YOUR EYES!

Remember the eyes change—and weaken—with the passing years. Defects develop—be noticed. Know that your eyes are right. See an optical specialist. If you don't need glasses he'll tell you so—gladly. But, don't delay. Remember it's better to be safe than sorry.

## AND HE DID

## NOTES OF SCIENCE

A French scientist claims to have found a way to melt asphalt rocks and mold the material into the hardest known paving blocks.

Builders in an Ohio city are experimenting with residences having frames of steel, which can be anchored in masonry foundations.

An American company is planning to link Mexico City with the oil fields of Tuxpan and Tampico by a fleet of twenty-five or more airplanes.

It would require 19,000,000 of the 23,000,000 horses in the United States to equal the power supplied by central electric stations.

A German industrial plant moves from fifty to sixty tons of large size coal an hour a distance of 100 feet through pipes by compressed air.

A pin cushion has been mounted on a flexible metal bracelet and can be worn like a wrist watch by persons using many pins in their work.

A government board has been appointed to supervise all schemes for electric lighting and electric supply in the Federated Malay states.

Neither weights, springs nor rubber bands are needed with a new home exerciser in which one set of muscles are made to work against others.

An iron ore deposit estimated at 19,000,000 tons has been discovered in the Straits Settlements, with signs of coal in the same vicinity.

## ODD AND INTERESTING

Hard-horns, were used in warfare as early as the fifteenth century. Dried figs are, weight for weight, more nourishing than bread.

Whales have a thick layer of fat beneath the skin to keep them warm. An iceberg that rises 100 feet above the water stretches 700 feet below it.

The wood of which the ark was built has been identified by many scientists as cypress.

Gladstone was eighty-three years of age when he became premier of England for the fourth time.

During the last forty years more than eight thousand wrecks have occurred on the coasts of Great Britain. Greenland was discovered and named about the end of the tenth century by a Norseman, who established a colony there.

Threads of gold used in India for making lace are drawn out so fine that 1,150 yards of it only weigh one ounce.

A pile from which a dog has eaten will never again be used for the preparation of macaroni food among typhoids.

If the sun were extinguished suddenly, we should not be aware of the fact until eight minutes and eighteen seconds afterwards.

In the north of Siberia most of the food sold in shops is frozen. Meat is chopped with axes and milk is sold in long sticks.

The chief difference between the human hand and that of the higher apes lies in the thumb, which is always shorter in the ape.

Hammocks are supposed to have received their name from the fact that the natives of Brazil used the bark of the hammock-tree for nets in which to sleep.

Probably the oldest piece of furniture in the world is the throne of Queen Hatshepsut, in the British museum. She reigned in the Nile valley some 1,600 years before Christ, and twenty-nine years before Moses.

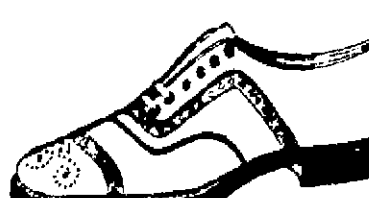

Tremendous difficulties have been encountered and overcome in making the new Syrian tunnel, which will shortly be ready for traffic. At one spot about two and a half miles from the Italian end of the tunnel, the rock pressure was so great that eighteen months were spent in boring fifty yards at a cost of \$870,000.

## TODAY'S EVENTS

Monday, October 8.  
 Kansas City today began a celebration of the Missouri Statehood centennial.

The Rt. Rev. Beverley D. Tucker, Episcopal bishop of Southern Virginia, celebrated today his fifteenth anniversary in the episcopate. The annual National Same shoe, under the auspices of the National Swine Growers' association, was opened today at Peoria, Illinois.

The first business show ever to be staged in New Orleans was opened today and will continue through the remainder of the week.

Res. J. A. Spencer, a preacher of Lakeport, California, was scheduled to be placed on trial today on a charge of having murdered his wife.

More than 200 women are candidates for various local offices in the "little town" elections held in Connecticut today.

Following the summer recess, the supreme court of the United States reassembled today with William H. Taft, the new chief justice, presiding.

Red Cross workers from all parts of America met at Columbus, today, for the opening of a great national convention and exposition.

The New York Symphony orchestra and a number of famous soloists assisted in the sixty-third music festival opened at Worcester, Massachusetts, today.

Secretary of State Hughes presided at exercises held today in the National Museum in Washington to commemorate the sixth centenary of Daniel's death.

The historic cruise, Olympia, sailed from Newport, Rhode Island, today to bring home the body of the unknown American soldier for burial at Arlington on Armistice day.

The case of William A. Hightower, accused of the murder of Rev. Patrick E. Heelan, Catholic priest, was called for trial today at Redwood City, California.

Local problems facing every section of the United States were taken up and discussed as bearing on general business conditions at the American Bankers' association convention opened in Los Angeles today.

Today saw the opening of the Alabama State fair at Birmingham, the Utah State fair at Salt Lake City, the South Louisiana fair at Donaldsonville, and the Oklahoma Free State fair at Muskogee.

We'd like to bet that Postmaster General Hays, with all his pep and initiative, "I never be able to deliver a package that a woman has tied up. I feel as helpless as a distillery watchman, and late Bud today, as he tried to pull

## FIGURES FOR YEAR SHOW CONTINUED GROWTH OF Y

Data Is Compiled by International Y. M. C. A. Committee.

### AINS SHOWN IN ABOUT ALL ACTIVITIES OF Y

Membership of 2,120 Associations in United States and Canada Totals 935,581.

Data compiled by the International committee of the Y. M. C. A. for the associations in the United States and Canada for the year ended April 30 last, and now made public, show gains in nearly every line of association activity. Pronounced increases are shown not only as compared with the previous year but with the last full year, 1917, before the United States entered the war. The increases over 1920 were similar to the record gains made in that year. As summed up by Dr. John R. Mott, general secretary of the international committee, "in almost every class of the associations it has been a year of progress."

Membership in the 2,120 associations in this country and Canada totaled 935,581 on April 30 last, against 866,592 in 1920 and 729,465 in 1917. Adding to these the latest available figures for countries outside of North America, which are those for 1920, the world total of Young Men's Christian associations is shown to be well above 9,000 and the membership above 1,500,000.

#### Work Elsewhere.

In addition to service at home the North American associations are carrying on work in more than twenty countries, while Y. M. C. A. activities under other national auspices bring the total of countries with established associations up to nearly twice that number. There is in addition the work still in progress among allied armies and ex-service men in Europe and the Near East. Although this work is being demobilized and domesticated as rapidly as possible, American secretaries are still directing and financing association funds are still financing a work on behalf of more than 2,000,000 of such men.

Nineteen huts and extensive athletic facilities are serving the American forces in Coblentz and vicinity. The details of the many meetings between the athletes of the three armed of occupation, the units of the A. F. G. and other athletic organizations have all been under the care of the association.

A prominent feature of the past year's activities has been the extension of the service among men of the American merchant marine. This work is now carried on at three home and nine foreign ports. The merchant marine branch in Brooklyn alone obtained free employment last year for 25,450 men, thus justifying the distinction which it claims as operating the largest employment bureau in the world.

**Cherbourg Headquarters.**  
"Together with the Y. W. C. A. the Y. M. C. A. has expanded the service of its immigration department, with Cherbourg, now the largest immigration port in Europe, as the headquarters of this work, which is maintained at six other points on the continent."

The mass of statistics relating to the activities of the various classes of associations and numerous departments are best summarized by experts from comment on the year's work in North America, by Dr. Mott, general secretary of the international committee, as follows:

"The large majority of the associations have worked their way back to normal and many of them are moving on their greater strides and more marked achievements.  
Position Is Strengthened.  
"The position of the leading city associations has been strengthened. In the case of smaller cities, the record, generally speaking, has not been quite so encouraging.  
"In the industrial field the openings and demands for the work have exceeded the ability of the association movement to respond.  
"The associations along the railroads and in the newly developed service for the merchant marine have had a good year judged by every test.  
"There has been an unprecedented increase in the number of students in universities and colleges. The associations on every hand have met this new challenge with splendid courage and effectiveness and have closed their most fruitful year in evangelistic results.  
The rural and colored associations as well as the boys' work, while

# UNDERWEAR SPECIAL!

Positively For One Day Only

## Wednesday

### Your Golden Day of Opportunity

Wednesday we again put into force our policy of offering Sensational Mid-Week Specials of values so alluring as to take the town by storm. Our first one will be a record-breaker—here it is:

## Men's Finest Ecu Ribbed Union Suits

Extra good quality material and workmanship. Soft, flexible garments—good heavy Fall and Winter weight—long sleeves, long legs—all sizes.

## A Regular \$1.50 Value--Special for Wednesday only 89¢

In order to give every one an opportunity to save on this special we are compelled to

### Limit 2 Suits

to a customer.  
None sold before or after Wednesday at this price.

### The Most Sensational Underwear Value of Many a Season

When we say these are regular \$1.50 values we mean they are worth every cent of it. If this underwear were purchased at today's wholesale price it could not be sold for one cent less than a dollar and a half.

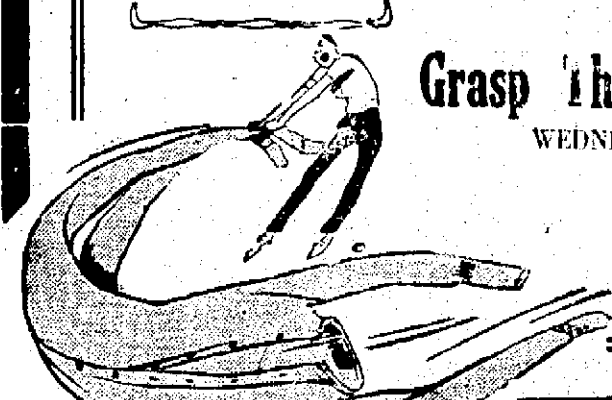

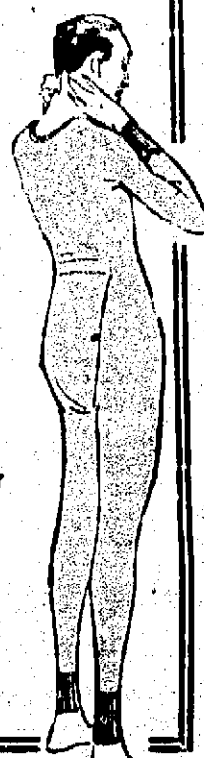

SEE THEM IN OUR WINDOWS

You'll agree with us they're the biggest values you've ever seen.

### Grasp This Underwear Opportunity

WEDNESDAY is the DAY, and the PLACE is

## DUGAN'S

showing a year abounding in on courage, have been retarded somewhat in their growth by inefficient staff.

"It may be questioned whether in the realm of physical work there has even been a year of greater practical helpfulness.

"The educational work has unmistakably entered upon a new era. More young men and boys were enrolled in the educational classes of the association last year than in all of the Protestant Christian colleges of North America.

"There are signs on every hand of the releasing of larger voluntary lay forces in the service of the associations than was apparent before the war."

When you think of a new home, think of Vernon Heights. 261-27

### The Principle of the "Ray-Glo"

Gas Heater was originated about twelve years ago in England, since which time they have practically supplanted all other methods of using gas for heat.
